Titles:

Agent Orange Registry Code Sheet, VA Form 10-9009.

OMB Control Number: 2900-0376

Type of Review: Extension of a currently approved collection.

Abstract:

VA employees obtain demographic data from existing records. The examining physician, Environmental Health (EH) Coordinator (formerly identified as the Agent Orange coordinator)/or other designated personnel obtain the remainder of the information during the Agent Orange registry physical examination process. The information obtained from the Veteran is entered directly onto an electronic VA Agent Orange Form 10-9009, Agent Orange Registry Worksheet (formerly identified as an Agent Orange Registry Code Sheet), via a secured website <http://vaww.registries.aac.va.gov> by VA personnel and transmitted directly to the Environmental Agents Service (EAS) Agent Orange Registry database located at the Austin Information Technology Center (AITC), Austin, TX. Edits are automatically accomplished at the time of entry. The EAS Registries website allows you to edit pretty much all the information that has been entered. Some VA facilities will enter the information into the EAS Registries website while the Veteran is sitting in front of them. Other facilities will have the Veteran and the examiner complete the Agent Orange Worksheet on paper form, and then later enter the worksheet data into the EAS Registries website. VHA Handbook 1302.01, dated 9/5/06 states: "AOR worksheets and dated follow-up letters must be scanned, or made electronic, and attached to an appropriately titled CPRS progress note."

The registry provides a mechanism to catalogue prominent symptoms, reproductive health, and diagnoses and to communicate with Agent Orange Veterans. VA keeps Veterans informed on research findings or new compensation policies through periodic

newsletters. The voluntary, self-selected nature of this registry makes it valuable for health surveillance; however, it is not designed or intended to be a research tool and therefore, the results cannot be generalized to represent all Agent Orange Veterans.

Affected Public: Individuals or households.

Estimated Annual Burden: 6,667 hours.

Estimated Average Burden Per Respondent: 20 minutes.

Frequency of Response: Annually.

Estimated Annual Responses: 20,000.
